

Everyone goes to the Mall in Metro Manila- Why not plant a church here!

We launched 2 new churches here in Manila - One in a busy mall & the other on a covered basketball court!

Meet Pastor Vincent!

He's our most recent church planter. He's been serving and developing ministries for 30 years and God called him to plant another church. At his launch we had 382 in attendance!

Pastor Vincent meets regularly in a corporate building, reaching professionals right in their office spaces.

Meet Pastor Edwardo, although we all call him Pastor Towi (center, in orange) It's a thing here, everyone has a nickname

What I love about Towi (center) is he's a 3rd generation church plant.

Pastor Rodel (right), planted his church in 2022 and now has sent him out to plant his own.

Pastor Towi had built up 28 small groups before he launched! Reaching his community in the homes, at dinner tables, and on the courts where teens all hang out.

These guys are only 5km/3miles apart & yet there are about 145,00 people between each church plant

135 men joined us for an incredible pastor's retreat!

My favorite part was watching and listening to the veteran church planters speak into the lives of these younger men!
